

Ebode Intros Bluetooth Sound

Written by Marco Attard
23 May 2012

Ebode Electronics launches the Bluetooth Sound product group with a small wireless Bluetooth speaker ideal for use with mobile devices and laptops.

Weighing just 120g, the Bluetooth speaker has 10m RF range, frequency response of 100Hz-20KHz and loudspeaker output of 3W. It pairs with devices using Bluetooth V2.1.

Ebode says the battery provides up to 8 hours of music, with 1 month of standby time.
