Lenovo announces an update on its Yoga lineup of convertible tablets and notebooks-- the Yoga Tablet 2, the Yoga Tablet 2 Pro and the Yoga 3 Pro, with models featuring multiple screen sizes.

An update on the 2013 Yoga Tablet, the Yoga Tablet 2 comes in 8- or 10-inch models running on either Android or Windows. Lenovo says the kickstand is improved with a mode dubbed "hang" allowing users to, well, hang the tablet to display content.

The kickstand still handles the 3 modes from the original model, namely "hold," "tilt" and "stand."

Hardware-wise the Yoga Tablet 2 carries an Intel Atom processor, dual front speakers with Dolby Audio and Wolfson Hifi technology, 8 MP rear-facing camera and connectivity via wifi and micro USB port.

The Yoga Tablet 2 Pro is an entertainment-focused version of the Yoga Tablet 2, being a 13-inch tablet with a built-in pico projector and an 8W sound system complete with subwoofer. It features a 2560x1440 display, while the projector beams 50-inch images in 16:9 format.

The [Lenovo Yoga Tablet 2 Pro](#) is a 10.1-inch tablet with a 1920x1200 resolution display, featuring a quad-core processor, 16GB of storage, and a 13MP rear camera. It also includes a 10.1-inch IPS display with a resolution of 1920x1200 pixels. The device is available in two colors: silver and black. The silver version is priced at \$599, while the black version is priced at \$649. The device is available for purchase on the Lenovo website.
