

Acer Intros All-Aluminium Chromebook 14

Written by Marco Attard
30 March 2016

Acer presents the Chromebook 14-- a MacBook Air-style all-aluminium Chrome OS-powered notebook named after its being the first from the company to have a 14-inch display, as well as a 14-hour battery life.

The aforementioned 14-inch IPS display is available in either 1366 x 768 or 1920 x 1080 resolutions, and offers 170-degree viewing angles and reduced eye fatigue via ComfyView low-reflection and anti-glare properties.

Powering the notebook is a dual-core 16GHz Intel N3060 Braswell CPU, while further internal details include 2/4GB RAM, 32GB internal storage, dual USB 3.1 ports, HDMI port, Bluetooth 4.2, 802.11ac wifi, stereo speakers and a 720p webcam.

The Acer Chromebook 14 is available from April 2016.
