

Asus announces the Designo MX25AQ-- a 25-inch ultra-slim frameless monitor featuring WQHD (2560x1440) resolution the company describes as nothing less than "a true work of art."

The monitor has a bezel just 1mm thick around a 1440p IPS panel. It offers 100% sRGB colour range with a 5ms response time and 75Hz refresh rate, while connectivity comes through DisplayPort 1.2, HDMI 2, HDMI 3 and MHL2.0/HDMI ports. Audio is also included via 3.5mm headphone jack and a pair of 25mm 3W speakers.

On the software side Asus includes Eye Care (provides blue light filter and flicker-free images), SplendidPlus Video Intelligence (enhances colour, brightness, contrast and sharpness according to Reading , Darkroom, Scenery, Night View, Theatre, Game, sRGB and Standard presets) and VividPixel (enhances image outlines and reduces noise bars). A QuickFit Virtual Scale hotkey allows users to preview documents in actual size before printing, while audio is enhanced with SonicMaster, Audio Wizard and Bang & Olufsen ICEpower technology.

The Designo MX25AQ is available now.
