

IT Jobs Can Be Sexy, Suggests EC Commissioner

Written by Bob Snyder
11 March 2008

"We have to convince young women that ICT isn't just for geeks. IT jobs can be very sexy indeed," Reding told journalists in a briefing.

Reding believes getting women recruits is the best way to make up the shortfall of 300,000 skilled ICT personnel in Europe. Women accounted for 58% of all graduates in the EU at last count, but female computer science graduates fell by 4% during the same period.
