---

The largest CE convention in Europe with 1200 exhibitors and 200,000 visitors, IFA Berlin will feature networked entertainment technology.

Sony will introduce plug-in adapters to wirelessly connect Bravia TVs to internet. Philips will show stereo systems that stream music throughout the house. Sonos will offer its new multi-zone digital music system.

Sharp, Samsung and others will present flat-panel TVs are internet-ready. HP joins in with its MediaSmart LCD TV that streams HD video.
