De Harense Smid takes over regional Dutch electronics retailer Elektrowarenhuis Leo van Schaijik's business operations for an as yet undisclosed sum.

On time of writing very few details on the purchase are available-- other than that of Leo van Shaijik's closing of all its business operations in the country as de Harense Smid takes over its outlets in Cuijk, Nijmegen, Tiel, Venray and Arnhem.

De Harense Smid will also take care of current Le van Shaijik customer orders.
